

**Sesse Lind**

Link Image would like to introduce one of their best-selling photographers, Sesse Lind. In his daily work, he travels around the world with his camera as a close companion. When not on the move, he is busy shooting fashion with the special touch of a Nordic eye and a strong feeling for light.

In Link Image's archives you will find a lot of his images from all over the world showing people on the streets, in bars, dancing, surfing or just being. We also have a large collection of abstractions by Sesse Lind. No one can capture the structure or feeling of a pattern the way he does. His abstract stock images have been used by a wide range of clients – from Lancôme and Martini Bacardi in France to several book covers in Great Britain and Germany.

His assignments are represented by the German photo agency Shotview and his archival work is represented by the Swedish stock photo agency Link Image.

Please have a look at Sesse Lind's work under the link photography at [www.linkimage.com](http://www.linkimage.com)

New photographer:

Björn Terring is a new member at Link Image. He is slowly filling the archives with images that reflect a young eye and a poetic view.
